How to Clean Skateboard Bearings - LiveAbout Feb 8, 2019 — You can clean your bearings without removing them, but you won't get WD-40 and other cheaper lubricants leave behind a film that actually

WD40 in sealed bearings | Mountain Bike Reviews Forum Sep 24, 2012 — After my cleaning, I sprayed some WD40 onto the sealed bearings and bearings unless you can pop them out and thoroughly clean them out. Fix slow skateboard wheels – Scout Life magazine It's important to use a silicone-based lubricant. WD40 or others like it will dry out your bearings and attract dust and dirt. It doesn't take much, and the excess will just spin out when you replace your shields, pop your bearings back in your wheels and start shredding. Skate safe and enjoy your new-found speed.”
